

The benefits of XM radio are priceless. Being on the road all day, XM radio allows me to check local traffic all of the time...not every half hour as most AM stations provide. Xm radio provides quality and a variety of listening pleasures not available elsewhere. The biggest factor in all of this is that I Pay...yes Pay...every month for this service...its not free and should not be treated like a free service. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve.
